

## Topic task 1 – Science – Darwin's theory of evolution

Charles Darwin was a very important scientist whose studies changed the way people viewed evolution. His theories were rather controversial at the time, and brought religious beliefs in to question.

Watch the video links below:

1. What were Darwin's discoveries and theories?  
[https://www.youtube.com/watch?v=BcpB\\_986wyk](https://www.youtube.com/watch?v=BcpB_986wyk)
2. Advanced evolution video –  
<https://www.youtube.com/watch?v=GhHOjC4oxh8>

### Task: Can you create a poster that shows the evolution of a chosen species?

This will require research of a chosen species, pictures to show how they have evolved. Facts about how they have adapted to survive in their environment, and information about how the evolution of your species fits Darwin's theories of evolution (include a definition of what evolution means).

## Topic task 2 – Create a miniature garden

Fairies may or not be real, but if they were, where would they choose to live?

Using any small container, can you create a miniature garden, fit for a fairy to visit and maybe stay in?

Things you could consider:

- Pathways
- Rockeries
- Ponds
- Trees
- Lawn
- Shrubberies
- Flowerbeds
- Patio/decking area
