

Suggested daily timetable

If possible aim to spend **2 hours** a day working on **learning tasks** - this could be broken into smaller chunks. I understand this is particularly difficult when home learning with children from different year groups! Please just do the best you can.

*I have created a suggested daily timetable (below). Please use this to support you if you are struggling to structure the day or if you are happy then please ignore! This is **not a prescriptive** timetable. If you have any questions please Seesaw message me. Miss Jones. ☺*
