

## Owl's home learning pack. Week Commencing 20.4.20

	Monday	Tuesday	Wednesday	Thursday	Friday
	<p>Math activities should not take more than an hour in total. For worksheets, select the questions which are at the right level for YOU. Do NOT feel like you have to complete them all. With problem solving activities, the focus is on thinking around the problems and investigating. This means you can be flexible in how to approach things and there is rarely one way of being correct. Have fun with it!</p>
